90 Capsules

NEW & IMPROVED CARDIOBETIC[®]

No
Aftertaste

THE SUPERSTAR INGREDIENTS that make **Cardiobetic** our #1 Supplement for Cardiovascular Health

HIGH EPA/DHA FISH OIL

Our super concentrated fish oil is high in the beneficial Omega-3 essential acids EPA and DHA without the worry of lead and mercury contamination. Each serving contains a full 1,200 mg of fish oil concentrate.

RESVERATROL

Resveratrol is a powerful antioxidant found in red wine. Exciting new research highlights its role in heart health and anti-aging. The Resveratrol in each serving is equal to 15.6 glasses of red wine, without the alcohol.

COENZYME Q10

CoQ10 is vital for energy production in the heart. Research has found that cholesterol-lowering drugs interfere with COQ10 production and that up to 75% of patients with heart disease had low levels of CoQ10.

L-CARNITINE

L-Carnitine shuttles fat into the cells where it can be burned to produce energy. At least 60% of the heart's fuel is from fat sources. L-Carnitine supports healthy HDL/LDL cholesterol levels.

Cardiobetic

Pound for pound, the heart is the hardest working muscle in the body. And if there is a problem, you don't have a backup. Daily the heart pumps at least 2,500 gallons (9,450 liters) of blood. The heart has the ability to beat over 3 billion times in a person's life.

A number of nutrients can help keep your heart and cardiovascular system healthy. The key is to take the specific nutrients you need and take them EVERY DAY. Decades of research have gone into the nutrients chosen for **Cardiobetic** - the first product of its kind to combine **Fish Oil, CoQ10, Resveratrol** and **L-Carnitine** along with 5 other heart-healthy nutrients in a single formula.

Cardiobetic is a natural nutritional supplement. This unique formula promotes and encourages the body's natural ability to maintain a strong and healthy cardiovascular system for optimal functioning.*

The good news is that there is much you can do to maintain heart health. Scientific evidence continues to accumulate confirming the positive benefits of the 9 natural ingredients in **Cardiobetic** for optimal cardiovascular health. To achieve the strength, potency and broad range of nutrients in **Cardiobetic**, it used to be necessary to purchase 4 or more different products to even come close to this exclusive formulation.

Cardiobetic® 90 Capsules

CARDIOBETIC WAS JUST WHAT I NEEDED - I'M IMPRESSED

My sister loves Cardiobetic and told me about it. I took a bottle along to my next checkup and my doctor said it looked like a high quality formula. He was especially pleased that it combined fish oil with Co-Q10 to maintain healthy blood pressure and triglycerides. I have been using Cardiobetic for over a year now and have been impressed with the product. In my opinion, it is the best choice out there for anyone who wants to take care of their heart.**

- Jeanine A., IN

Recommendations: Take 3 capsules daily, preferably with food or as otherwise directed by your healthcare professional.
