- Cutting Edge Formula – 11 “Neuro-Supportive” nutrients.
- Based on Cutting Edge Research

Researchers said that changes in nerve conduction can be measured long before the signs of nerve disruption develop. Dr. Peter Dyck, a neurologist and lead researcher in the study, said “Changes develop much earlier than previously demonstrated.”

From head to toe, every part of the human body contains nerves. Nerves send signals throughout the body telling us when and how to react to triggers such as temperature, sound, and touch. They also stimulate muscle cells that allow us to move, keep our hearts beating and digest our food. Our nerves also play an important role in urinary continence and sexual functioning.

Scientific evidence continues to accumulate supporting the positive benefits of the 11 natural ingredients in **Neuro-Betic** for optimal nerve health and comfort. (Ingredient Information on the Reverse Side) The strength, potency and broad range of nutrients in Neuro-Betic is difficult to match even when purchasing a combination of 4 or 5 different products. With Neuro-Betic you receive the best natural product nutritional science has to offer.

Neuro-Betic is a natural nutritional supplement. This exclusive formula promotes and encourages the body's ability to maintain a healthy nervous system with normal functioning.
