

Concerned About Your Blood Sugar?

Glucobetic

#1
Seller

Doctor Recommended

- Helps Regulate Normal Blood Sugar
- Supports Efficient Glucose Utilization
- Aids in Normal Glucose Transport
- Natural Nutritional Supplement
- Based on Cutting Edge Research

When blood sugar levels are kept stable within the normal range, it is easier to maintain a healthy weight and sustained energy levels. This is because it sets the stage for your body to support optimal insulin levels and normal glucose regulation.

The Benefits of Normal Blood Sugar Include:

- Sustained Energy
- Fewer Food Cravings
- Better Concentration
- Less Fatigue
- More Even Moods
- Stronger Immunity

Glucobetic brings together a unique blend of 11 scientifically supported herbs, minerals and botanicals to help maintain healthy blood sugar levels. Glucobetic has a phenomenal customer satisfaction rate of 98.2%.

90 Capsules

I am very pleased with GLUCOBETIC. I have now had two successive routine blood tests that indicate that my blood sugar level has continued to stay well within a normal level. As a retired professor, I can say I was extremely skeptical. Thank you. I appreciate that you are keeping the cost of this supplement so reasonable.

-K. Kurt, Texas

I've been using GLUCOBETIC for about 2 years and my blood sugar has stayed in the normal range. My energy level is so much improved and I am leading an active life again. I have tried many supplements in the past and nothing has been as valuable as GLUCOBETIC.

Safe, Natural, Effective Support for Healthy Blood Sugar....with Glucobetic

Normal Blood Sugar Balance Critical to Long-Term Quality of Life

Maintaining healthy blood sugar levels in the normal range is not only critical for energy and mood, but also for cardiovascular, nervous system, and immune health. Since the typical diet is high in refined carbohydrates and sugars, it's no wonder that such a high proportion of our population has concerns about how diet affects blood sugar. Hectic lifestyles, chronic stress, and genetic predispositions can also easily affect the delicate balance that influences glucose and insulin levels. That's why Flourish Wellness offers **Glucobetic** to support key areas of normal glucose metabolism.

Comprehensive Formula with 11 Scientifically Supported Ingredients

Vanadyl Sulfate - The top mineral to optimize normal insulin sensitivity.

Chromium Polynicotinate - Supports the power of insulin to process sugar.

Zinc - Vital mineral used by the pancreas to produce insulin.

Gymnema Sylvestre Extract - Powerful herbal agent for effective blood sugar regulation of normal blood sugar levels.

Bitter Melon Extract - Tropical botanical that supports normal glucose transport.

Fenugreek Extract - Contains a specialized soluble fiber to regulate optimal glucose absorption.

Bilberry Extract - Potent antioxidant with flavonols for healthy blood vessels.

Cinnamon Extract - Studied by the U.S. Dept. of Agriculture for its effects on insulin signaling and glucose transport.

Jambolan - An Ayurvedic botanical traditionally used to balance healthy blood sugar levels.

Pterocarpus Marsupium Extract - Supports normal glucose tolerance and insulin sensitivity.

Banaba Extract - Regulates normal insulin sensitivity and cellular uptake of glucose.
