

Is Indigestion ruining your day?

****Probiotic Digestive Support****

Our **Dual-Action** formula contains both digestive enzymes and probiotics to combat difficult digestion and support colon health.

This is big news - our dual-action product contains 9 targeted enzymes, both pre and probiotics with one billion healthy bacteria from *Lactobacillus Acidophilus* and *Lactobacillus Bifidus* along with Peppermint to calm and soothe the stomach. **Probiotic Digestive Support** contains only high quality vegetable-source enzymes that work to break down protein, carbohydrates, fats, difficult starches and dairy products. In fact, this comprehensive formula works on every component of your meals.

To fully address digestive health, you need both probiotics and digestive enzymes. Probiotics and digestive enzymes work in different, but complimentary ways. Probiotics are “beneficial” bacteria that live in our intestinal system and help keep it functioning properly. Gas, bloating and digestive distress are telltale signs that your system is not in balance.

Two Powerful Products in One Amazing Formula Probiotics and Digestive Enzymes

Eat the healthy foods you love, without discomfort and feel confident that you are absorbing all the health-boosting nutrients you need to feel healthy and energetic. Digestive upsets may be uncomfortable and embarrassing. They may also limit your food choices unnecessarily. According to the National Institutes of Health, 60-70 million Americans are affected each year by digestive issues. **Probiotic Digestive Support** is a wise choice to keep your digestive system healthy and functioning normally.
